GPBots AI-Powered
Arbitrage at Its Best***

Artificial ***Intelligence A.I.***

Introducing **GPBots**, our groundbreaking artificial intelligence crypto investment. In the world of cryptocurrencies, innovation never ceases, and with the ability to process large volumes of real-time data, our AI accurately and efficiently identifies arbitrage opportunities. It is on the verge of transforming the way people trade Bitcoin on major exchanges worldwide!

GPBots.com

MACHINE LEARNING

Bitcoin. Arbitrage. Daily Profit.

Our intelligent automation identifies real-time arbitrage opportunities, enabling accurate and efficient buying and selling of Bitcoin across multiple trading platforms. This advanced algorithm simultaneously analyzes various exchanges, identifies price discrepancies, and executes instant transactions to ensure consistent profits.

BITCOIN ARBITRAGE

Licences

By purchasing a license, you will be included in the global matrix of the system, which will allow you to earn daily profits of up to 1%. These winnings will accumulate along with other bonuses until the maximum winning limit is reached. After reaching this limit, a new license will need to be purchased in order to have a new bonus cap.

No arbitration revenue is generated on renewed licences.

Direct Selling 10%

Earn 10% on all licenses sold through your referral link.

Matrix Global 3x5

Global Matrix 3x5

The distribution of GPBots licenses follows a left-to-right filling pattern and entry order. Firstly, we fill the first position of each license in the designated level, then the second position, and finally the third position, which corresponds to license purchases. This filling pattern will be applied to all subsequent levels after the completion of the previous level.

1 LEVEL	→	3 Licenses
2 LEVEL	→	9 Licenses
3 LEVEL	→	27 Licenses
4 LEVEL	→	81 Licenses
5 LEVEL	→	243 Licenses
TOTAL:	→	<u>363 Licenses</u>

The earnings cap is calculated based on all bonuses.

200%

Indicate 5 people with the same license in your matrix and increase your cap to:

300%

✓ Upon reaching the earnings cap, the up to 1% daily profits from Bitcoin arbitrage are immediately halted. However, residual bonuses continue until your forced matrix is filled up to the third level. To receive earnings on the fourth and fifth levels, license renewal is required.

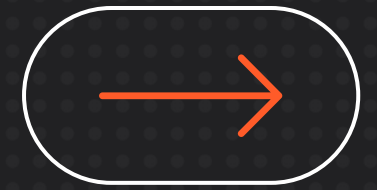

Residual

Earn 5% from the first to the fourth level and 10% on the fifth level for each license acquired in your matrix.
This occurs through indirect spillover until the matrix is completely filled.

LEVEL	LICENSES	%	LICENSES POSITIONED IN THE 3X5 MATRIX								
			\$20	\$50	\$100	\$200	\$500	\$1,000	\$2,500	\$5,000	\$10,000
1°	3	5%	\$3.00	\$7.50	\$15.00	\$30.00	\$75.00	\$150.00	\$375.00	\$750.00	\$1,500
