Our Compensation Plan:

Three Systems, One Path to Success

To maximize your earning potential, we've combined **three powerful systems** into one, offering both **short-term rewards** and **long-term income**.

Money Maker Wallets

Company Forced Matrix

Multi-Level Affiliate Marketing

With **automatic filling**, there's **no need to follow a sponsor**, and **no sponsorship required**.

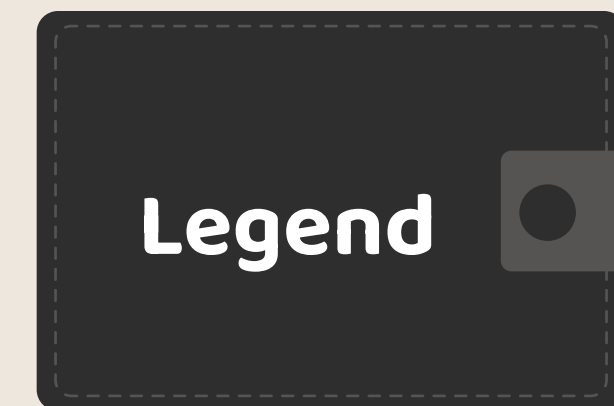

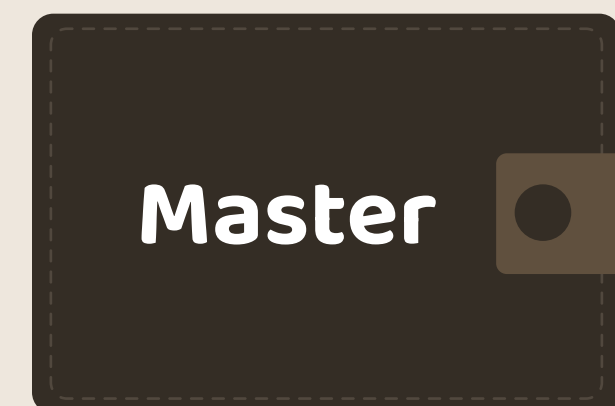

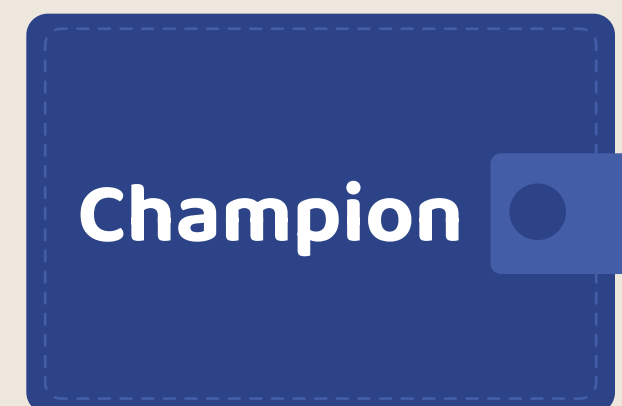

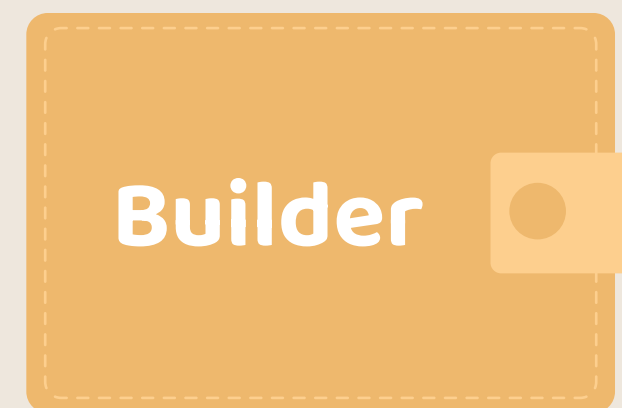

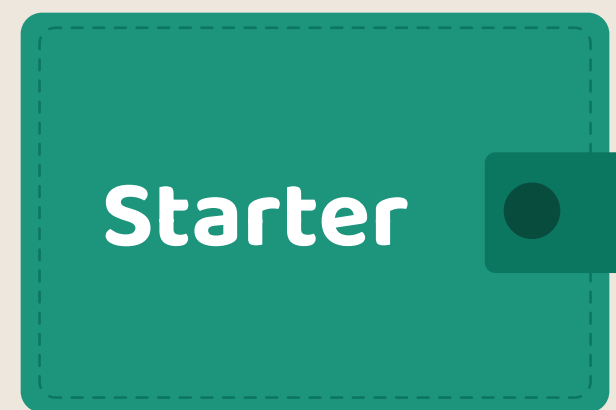

By upgrading to **The Club** for just **\$49 for 365 days**, 94% of that amount is paid back to club members through our combined pay plan.

Money Maker Wallets

Money Maker Wallets are designed for **fast, repeatable earnings**—starting from **\$20** and going up to **\$1500**. Collect coins to keep the income flowing!

There are 8 Money Maker Wallet levels

Complete 5 coins to finish each wallet and unlock the next. With each new wallet level, your earnings increase exponentially. The more you progress, the higher your rewards!

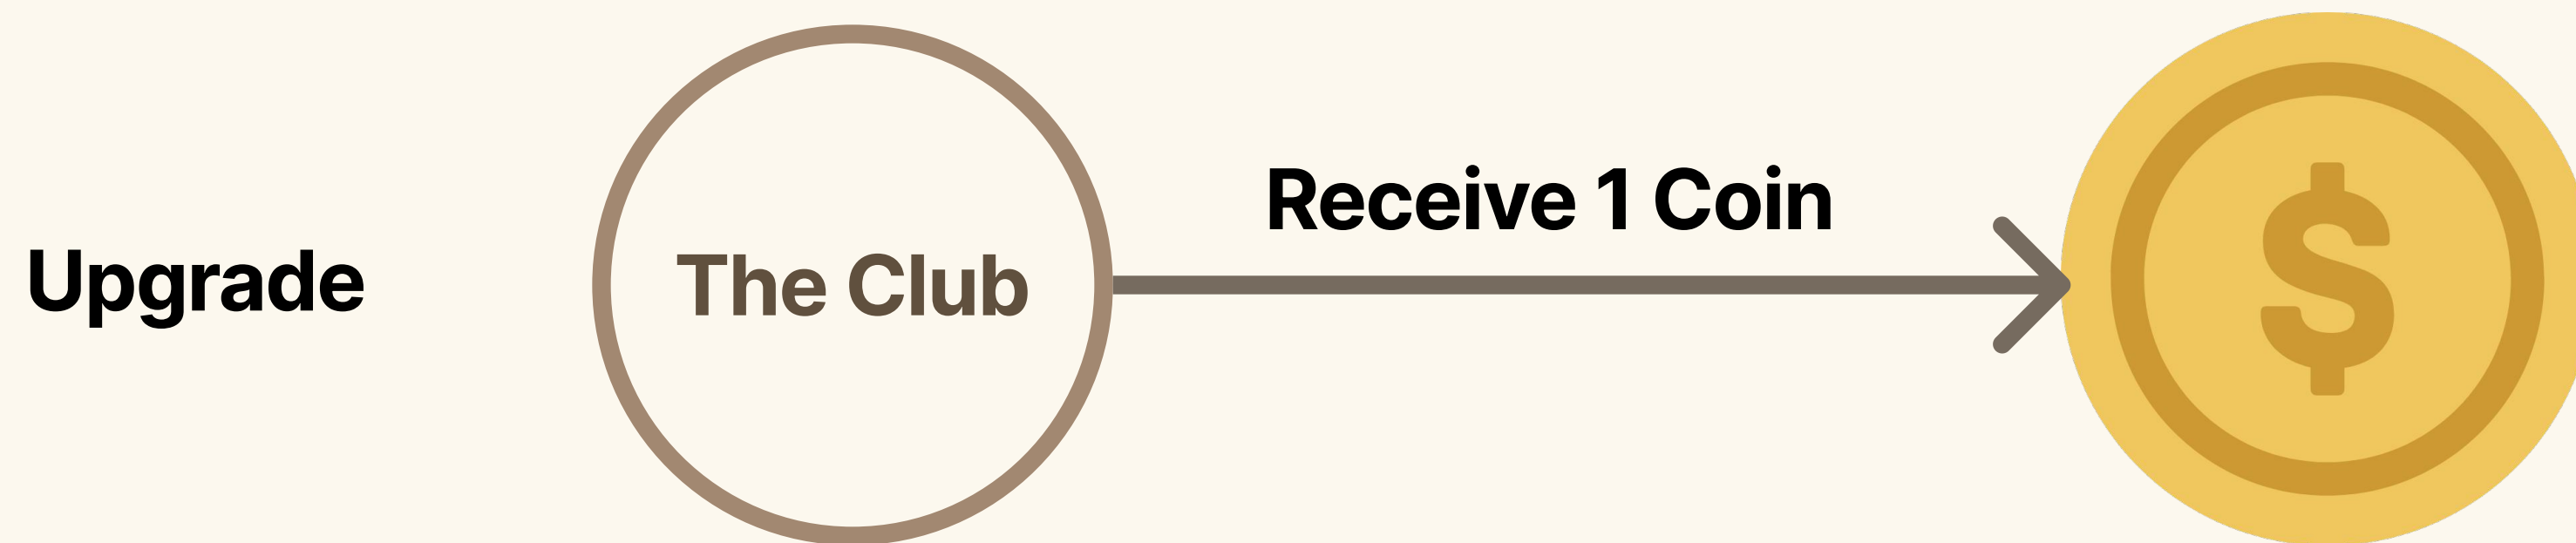

How Money Maker Wallets Work

In each Money Maker Wallet (MMW), once you **collect 5 coins**, the system distributes earnings and progresses you to the next wallet, allowing you to earn more at every stage. Here's a breakdown of all the boards:

How to Receive Coins in Money Maker Wallets

Joining & Upgrading:

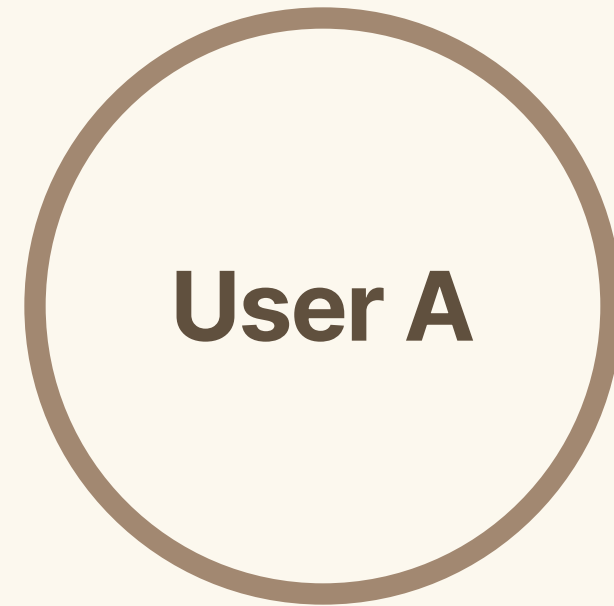

When a member upgrades to **The Club**, the system will automatically create a Starter MMW for them with **1 coin already credited**.

Filling the System:

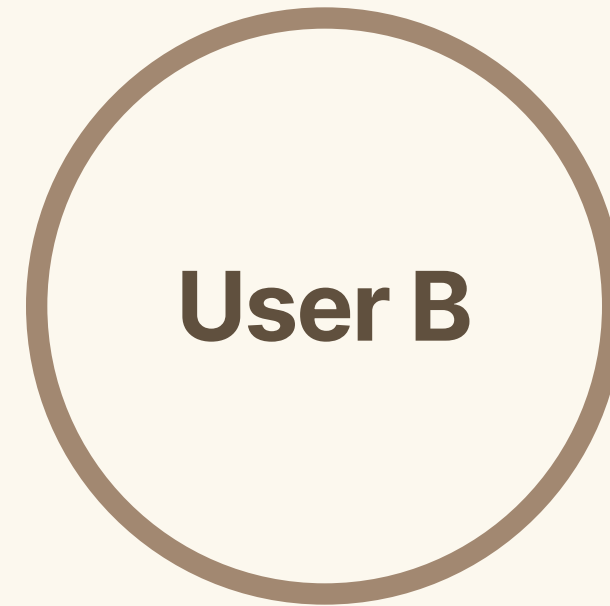

Each time new members join the platform or existing members upgrade, the system automatically fills the MMWs (Money Maker Wallets) in sequence. Coins are distributed to earlier MMWs based on entry time, ensuring a fair, structured filling process.

User A

Entry time

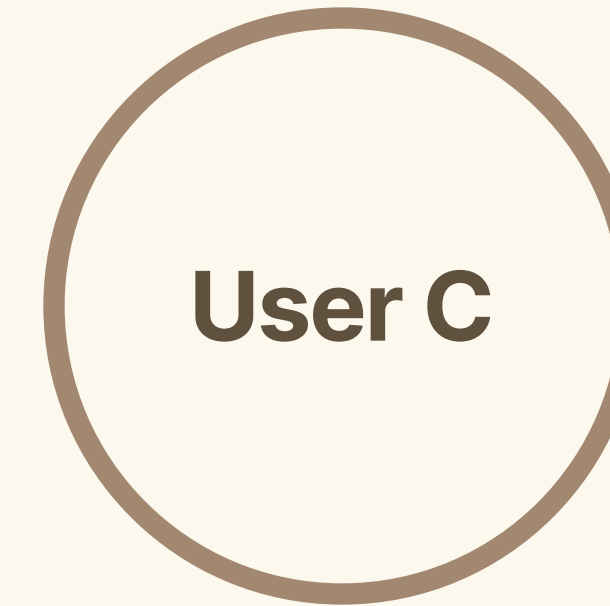

2024 Nov, 7 at 09:56

User B

Entry time

2024 Nov, 7 at 10:02

User C

Entry time

2024 Nov, 7 at 11:20

***** When a new entry comes, A will receive coins before B and C.**

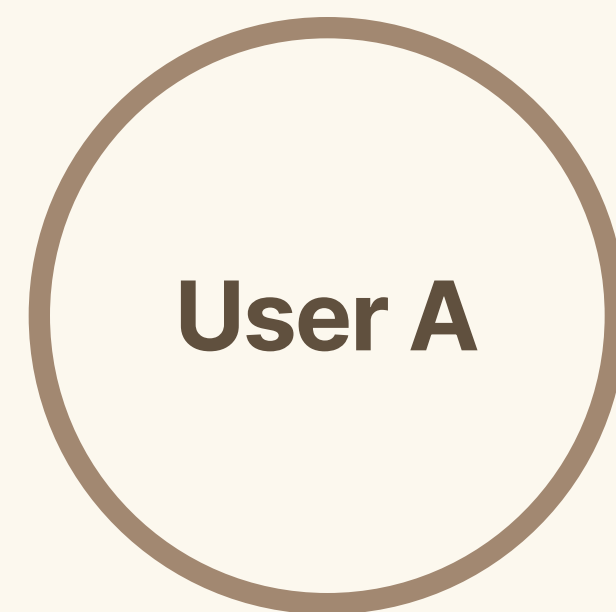

Coins from Other Members' Activity

As other members complete their MMWs, the system identifies wallets next in line to receive coins, based on their creation timestamps. If your wallet is due, it will receive a coin from the activity of other members' wallets filling up.

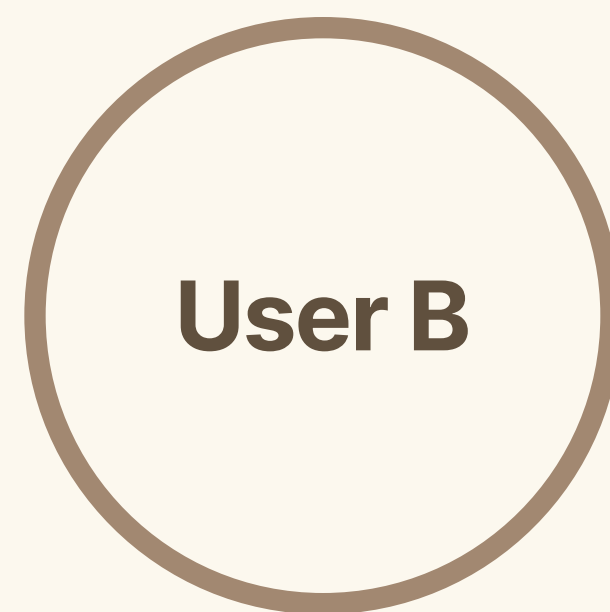

For example:

User A

Entry time

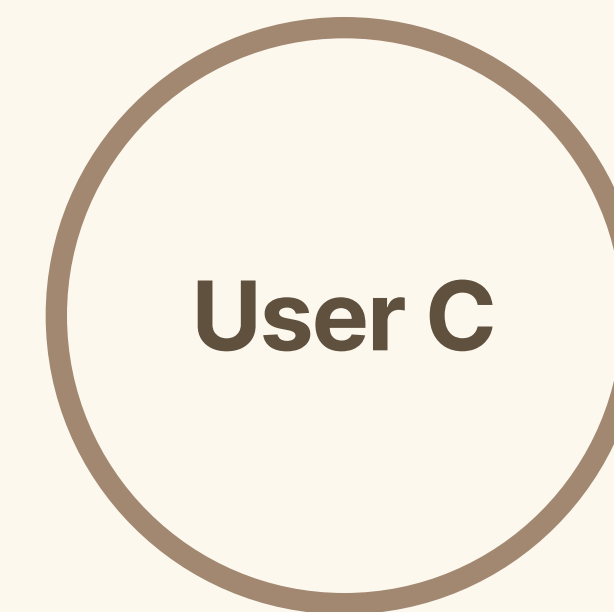

2024 Nov, 7 at 09:56

User B

Entry time

2024 Nov, 7 at 10:02

User C

Entry time

2024 Nov, 7 at 11:20

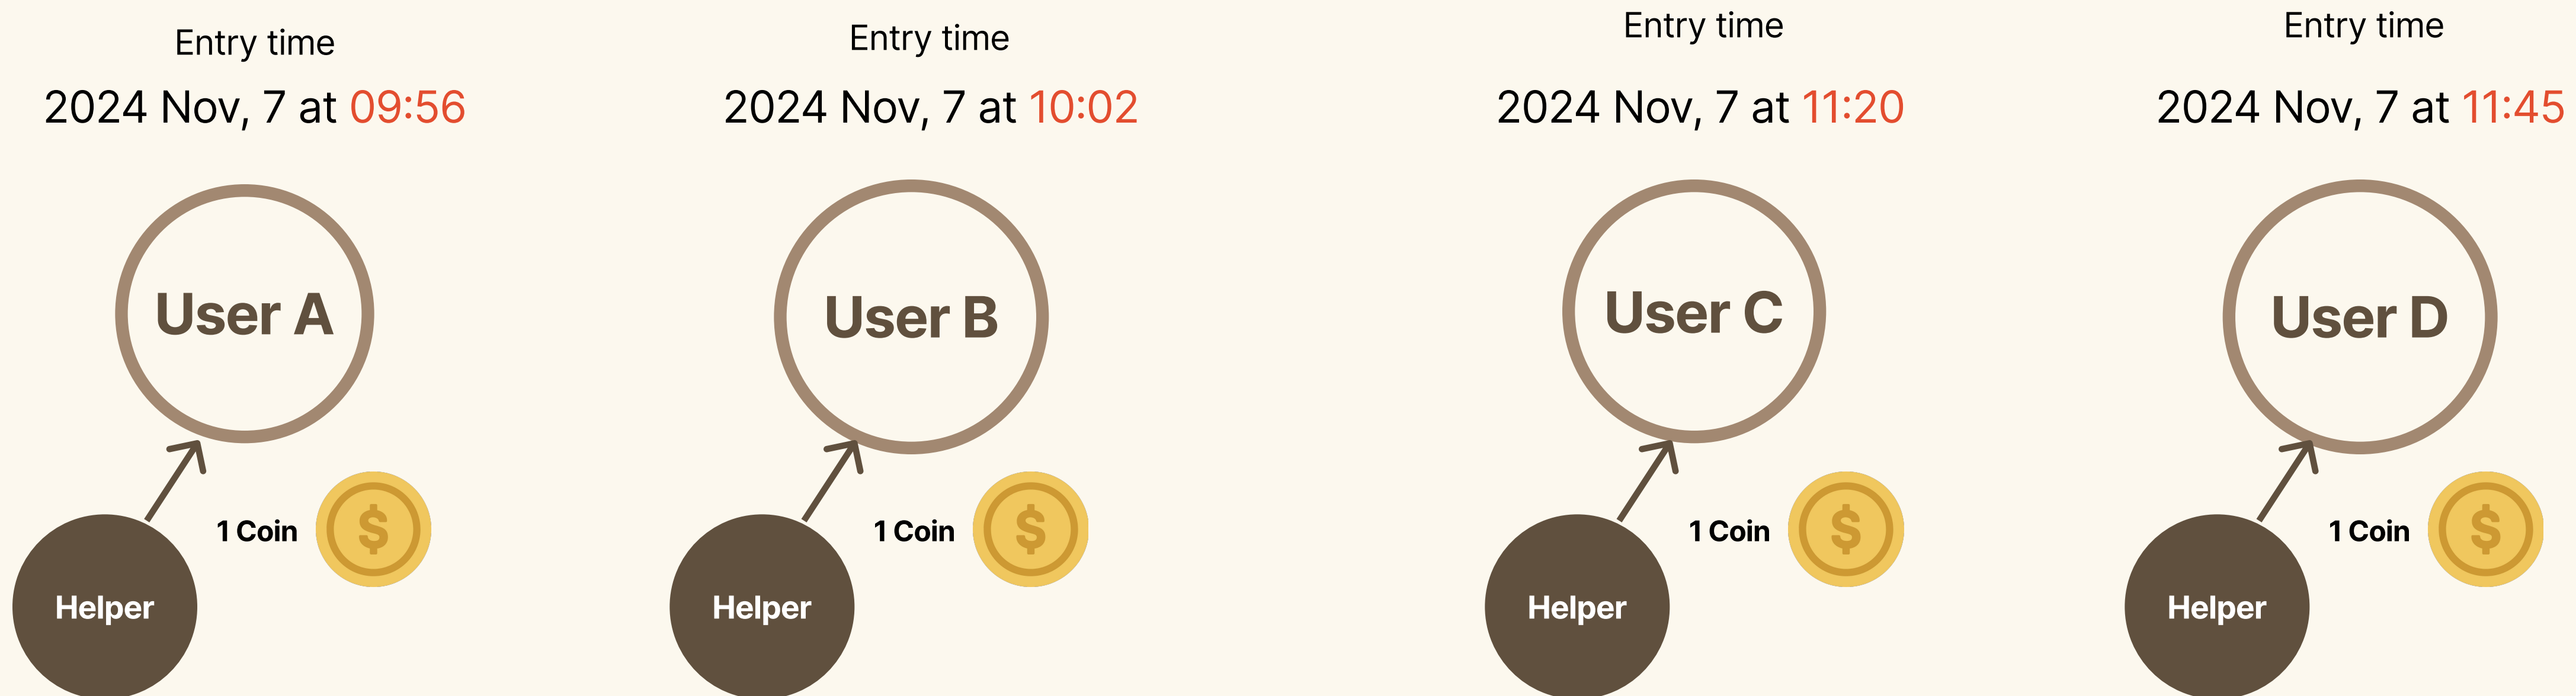

If member **Z completes their MMW**, the system will generate a new **MMW for Z with 1 coin** and search for wallets to fill. In this case, **A will receive 1 coin first**, followed by B and then C.

Coins from Helpers

Helpers sit at the top of each MMW, functioning like user MMWs. They assist the system by generating coins for everyone. While Helpers don't earn directly, they are designed to accelerate the coin collection process.

When one Helper completes its MMW, **it can multiply into four new Helpers**. These Helpers are then distributed across MMWs to help accumulate coins more quickly.

Experience the power and fairness of MMW—designed for everyone. You won't find a system like this anywhere else.

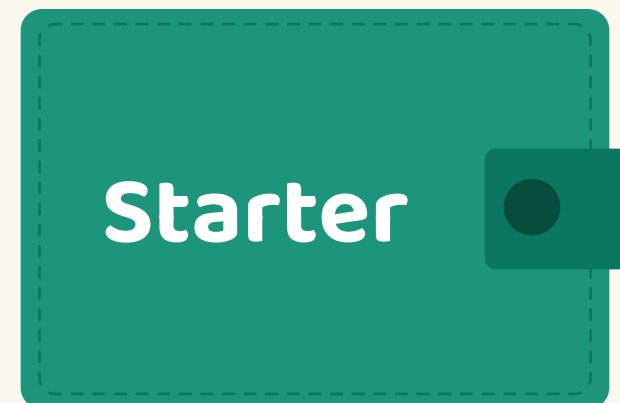

Achieving 5 Coins

Once you've **collected 5 coins** in your current Money Maker Wallet, the wallet is considered complete, and you receive your bonus (e.g., \$20 for Starter MMW).

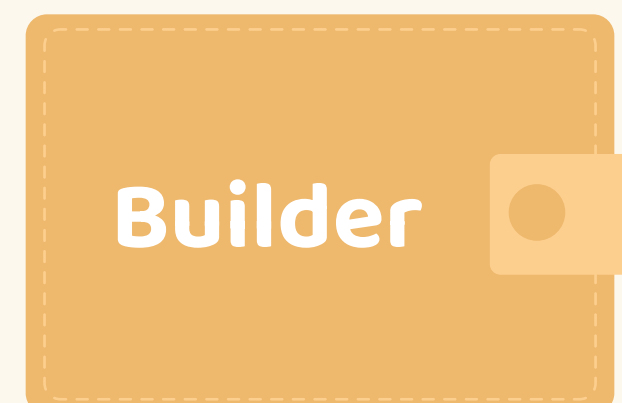

The system then automatically creates a new wallet (e.g., Builder MMW), and the process continues.

Ongoing Coin Collection:

The process of receiving coins continues as long as the system fills up with new and upgrading members, and the automatic filling mechanism ensures that your MMWs progress without requiring personal sponsorship.

Summary:

Coins are received through the system's **automatic filling** process.

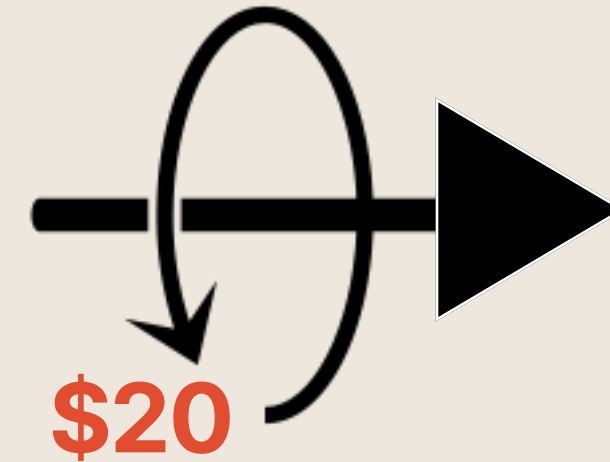

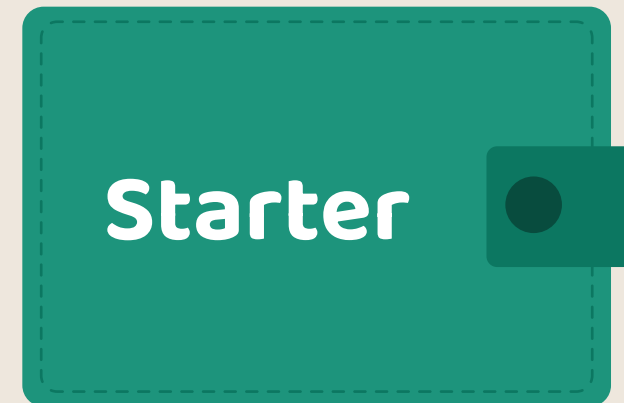

They are generated by the activities of new or upgrading members and **Helpers**.

Once a wallet collects **5 coins**, it's completed, and you move to the next MMW level, where the coin collection process begins again.

Company Forced Earning: The Power of Numbers

Our **Company Forced Matrix** is designed for automatic filling, ensuring that **no sponsor is required**. This means that every member can succeed, regardless of referrals.

Imagine this: Many websites out there already have **10,000 to 30,000** members, and some have **500,000 or even millions**. With numbers like that, the potential is massive.

At Earnings, we see this opportunity and have designed the system to maximize it. That's why we chose a **Company Forced Matrix 3×8 structure**—because it allows for exponential growth and higher earnings for everyone involved.

Look at the table below, and you'll see how realistic and achievable it is. Whether you're starting with a small network or millions of participants, the system automatically fills positions to help everyone succeed. This plan isn't just a dream; it's a well-crafted opportunity designed to make success possible for all.

\$9888

You can earn up to \$9,888 per position. And with our unique pay structure, you'll benefit every time a new position is filled.

Of course, our system is designed to help **everyone succeed together**. When a Club Member earns income, a portion of their balance—**10% by default**—is automatically frozen. You can adjust this percentage if needed.

Once the frozen balance **reaches \$12**, the system will generate a **new position** and **automatically fill the matrix**. This new position not only boosts your earnings, but it also **helps fill the matrix for other Club Members**, ensuring that everyone benefits and grows together.

With our **3-in-1 pay plan system**, everyone can succeed without needing a sponsor. Feel at ease—**no stress over monthly subscriptions**—just focus on your business. Use our powerful services like **advertising** and the **Ad Marketplace** to strike deals with site owners or other people. We understand that beginners may worry about finding new prospects, but our system has you covered.

Our **team leaders** will work for you, ensuring you earn quickly because our **affiliate program pays generously and offers one of the fastest ways to start earning.**
