

WHITE PAPER

HISTORY OF SUI

Sui is a layer-1 blockchain optimizing for low-latency blockchain transfers. It's focused on instant transaction finality and high-speed transaction to make Sui a suitable platform for on-chain use cases like games, finance, and other real-time applications.

WHO IS THE FOUNDER OF SUI?

Evan Cheng is an American computer scientist, co-founder and CEO of Mysten Labs, and a former director of engineering at Facebook.

WHY ACCUMULATE THE SUI TOKEN WITH SUI BISON SMART CONTRACT?

The Sui token is the native cryptocurrency of the Sui blockchain, which is designed to facilitate transactions, incentivize network participants, and enable governance. Sui token and its blockchain are one of the fastest, smooth and reliable crypto projects of our time. Many has predicted it to be the next Solana. What better way to accumulate Sui than participating on the staking opportunity on Sui Bison.

SUI BISON

Sui-Bison is the first of its kind community driven Smart contract Project on the Sui Blockchain, with expert computer engineers and Mathematicians, working to ensure that we earn and grow our Sui portfolio.

HOW TO PARTICIPATE
